Smart Phones are available and used by most students today. There are a wide variety of APPS that are being produced that would allow Physics teachers to bring this technology into the classroom as a tool to help students to learn physics. Since the students already have the devices this would be an opportunity to allow them to use this in your teaching. Many APPS will be demonstrated and used. Participants should bring the devices that you have to use during the workshop. Please also bring any app that you have found to share with those in the workshop.

Workshop leaders: Pat Callahan (ptcallahan@aol.com) Dave McCachren (drm34@mcsdk12.org)

Where: Misericordia University  www.misericordia.edu

When: March 21, 2014

Time: 8:30 a.m. to 3:00 p.m.

Cost: $75 make check payable to AAPT-CPS

Please send registration to or email and pay at workshop
