Pennsylvania Section  
of  
The American Association  
of Physics Teachers**

**AAPT—CPS**

**Serving All Levels of  
Physics Instruction**

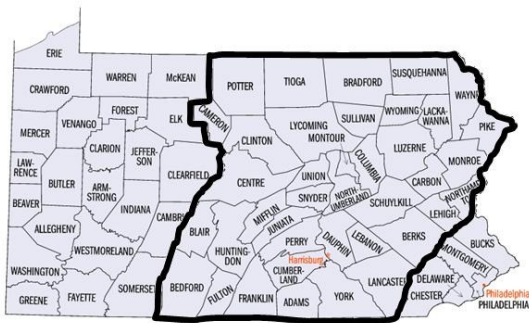

# AAPT—CPS exists for

## Benefits of membership

- The advancement of the teaching of physics in the colleges, universities and high schools of Central Pennsylvania,
- The promotion of professional spirit and acquaintanceship among the members of the section,
- The encouragement of instruction in physics in the secondary schools of the region served by the Section, and
- Providing professional development opportunities for members and non-members in our region.

AAPT-CPS covers Pennsylvania counties from the Poconos to west of State College, from the New York border to the Maryland border. Our members range from high school teachers to senior university professors, from first year instructors to 30 year veterans.

## SPRING CONFERENCE

The Central Pennsylvania Sections holds a General Meeting and Conference every Spring. The location rotates among colleges in different parts of the state, ensuring everyone has a chance to attend a nearby event. Students are welcome to attend and present at the poster session or short talks.

## CONFERENCE HIGHLIGHTS

- Poster session by students
- Short talks by participants
- Keynote speaker
- Banquet
- Vendor representatives
- PTRA workshop
- Demos suitable for all levels

The Section has begun running mini-meetings at various locations throughout the region. These are short, one day or evening meetings with one or two talks. There is no fee and they are open to members and non-members. Watch our Web site for one near you.

**Join us and be part of a physics community.**

- Meet, mingle, and talk with other physics educators at our conferences.
- Professional development opportunities.
- Attend short talks on education, research, and general physics topics.
- Give a short talk on your favorite demo, teaching methods, or research project.
- Encourage your students to give poster presentations or short talks.
- Give your students a chance to attend a local physics conference.
- Attend workshops.
- Receive our newsletter.
- Make contacts with other local physics instructors.
- Get or give help and advice.
- Very low registration and membership fees

Our Section maintains a website at

**[www.aaptcps.org](http://www.aaptcps.org)**

Here you will find details on upcoming conferences, links to educational and researched sites, links to schools in the section, and information about the Section and its members.
